

## About Us

Artistry Entertainment International, Inc. is a single source solution provider for audio, video, show control systems and media content.

Artistry Entertainment provides innovative and forward-thinking approaches and techniques to projects and productions that offer emotional impact and real world value. We offer professional services for a wide variety of markets including corporate, institutional and government facilities, themed entertainment parks and venues, large specialty public assembly projects, television, film and video games.

Artistry Entertainment International, Inc.'s total design and engineering services include Design Concept, Schematic Design, Design Development, and Fabrication/Construction Documents for audio/visual systems and electronic control infrastructures

Additionally we can provide project management, systems integration, installation, and onsite technical support. Our audio and video media content is custom made to order to allow the creative vision to come to life. We offer total turn-key media solutions that include Concept Development, Story Boarding, Writing, Production, Post Production, Mastering, and Duplication.
