

Technology

Artistry Entertainment embraces working with new technology. While some situations require solutions that are based on cutting edge designs, all demand reliable and proven technologies. We're not afraid to step out of the box and use creative new solutions when circumstances demand it. In fact, Artistry Entertainment has developed a specialized line of equipment called Artistryware. Artistryware is the result of the need for solutions where previously none existed.

Audio / Video

We're experts in high quality audio / video production. We have a broad range of tools at our disposal, from production studios to a complete Dolby / THX certified surround sound mastering theater. Whether your project requires voiceover, music, high definition video, graphics, animation or complex Mpeg encoding, our team can handle your needs in a timely and cost effective manner.

Programming & Training

Although Artistry Entertainment uses customized tools and complicated algorithms to program show systems, we provide the end user with a simple and intuitive interface. Our industry experts walk you through all the steps necessary to run these systems on your own. We don't leave our clients out in the cold. We're there to help you, every step

of the way!

Quality Assurance

We believe quality is essential to the success of any business. To make a difference, good quality practice must be embraced by senior management and instilled within an organization's culture. Quality is not just about implementing a system or working towards a set of standards. It is an attitude, a way of working, which not only improves businesses but the way people work and live. Artistry Entertainment is a major force in the pursuit of quality. Artistry Entertainment exists to add value to our clients and enhance quality throughout our industry. Artistry Entertainment is proud of our highly detailed documentation and services.
